The wardrobe extension units can be added on to the carcase sliding-door wardrobe.

The corner extension unit can only be added on to a wardrobe basic unit. 1 door and 1 corner wardrobe panel must be ordered for the corner extension unit. It is not possible to fit the unit on a carcase sliding-door wardrobe. Required outer width: 115,5 cm (13,5 cm not usable).

The rear wall panel, carcase, drawers and shelves can only be fitted between 2 wardrobe basic units with hinge-doors. They must be ordered separately since colour combinations are possible. The shelf set is absolutely essential for fitting out the rear wall panel. When including the horizontal passepourtout frame, one shelf is absolutely essential to form the top end. The 2 Raster carcase can also be fitted at the bottom. Several carcasses can also be placed directly above one another.

Side end slat can only be fitted on hinge-door wardrobes

Vertical passepourtout can only be fitted in combination with the horizontal passepourtout; the passepourtout can only be fitted on hinge-door wardrobes

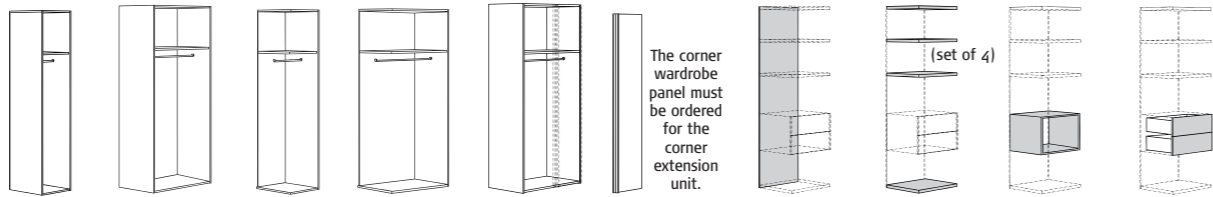

High-gloss care set
