

The clear and straightforward overall concept of now! home lounge madison catches the eye. It is an innovative and versatile planning range: providing endless planning possibilities with a small number of units.

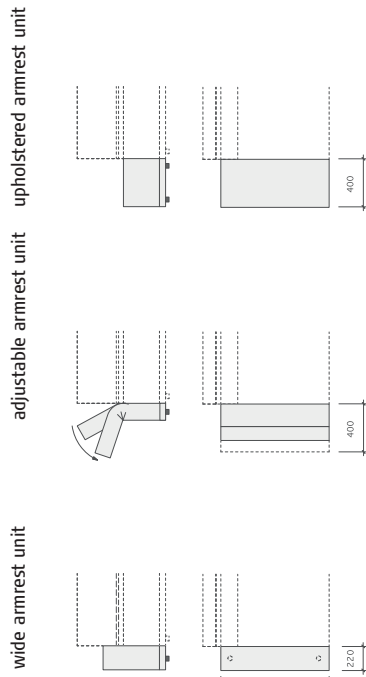

now! home lounge madison is a comfortable upholstered range in a simple and clear form with straightforward contours radiating a feeling of lightness. The chair block is split up by an integrated seam in the lower section (5 cm from the lower rim) and therefore takes on a somewhat flatter and lighter look. The backrests are 14 cm slim and bend by about 6° to the rear at the height of the seat block. This means that the person seated automatically finds himself in a very comfortable sitting position. The seat block has a depth of 76 cm and some casual-looking decorative and backrest cushions mean that the surface can be reduced in size if required and made more comfortable.

The real "eyecatchers" of the upholstery range and "comfort increasers" are the casual covers in each of the basic unit sizes which can be consciously used to create special effects but which, of course, can also be used in all the units in the combination. These covers are slightly quilted and create a soft, counterpoint to the clear lines of the basic unit with their apparent "softness". They are manufactured using thermo-elastic Visco-foam which reacts to warmth and therefore adapts to the user's body contours. Further eyecatchers and "use increasers" are provided by boards in a variety of different height and widths that can be placed together with the upholstery, e.g. instead of an armrest or behind an upholstery unit. They can serve as a shelf or as a table - here we also provide a small collection of trays - or as a bookshelf, etc. Cushions in a variety of sizes that can be placed symmetrically or non-symmetrically as desired round off this flexible upholstery range. The person seated can use these cushions to reduce the depth of the upholstered seat surface to a size that is comfortable for his own needs - anyone liking a particularly deep seat can just lean back directly against the comfortable backrest. Decorative cushions in the shape of leaves - maple, water lily and birch - create some soft counterpoints.

## now! home lounge wilson: endless at last.

now! home lounge wilson is a module system - just as multifaceted as modern life itself. It doesn't just imply not standing up, but is an invitation to chill out, lounge around, read, stretch out, surf the net, rest or work. Or even dine, watch TV or have a chat.

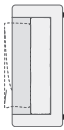

In the room. From every side. A classic position by the wall. Everything goes. With lots of different widths, depths, substructures, corner units, sofas, foot stools and armchairs. Plus accessories like shelves, storage surfaces and trays. And these even come in different wooden and lacquer surface versions. To keep things lively. In fact, "boring" is just about the only thing that doesn't go.

now! home lounge wilson allows you even more combinations than the state lottery. But you win more: going from elegant to modern and even avant-garde or classical arrangements. The sofa as a living room environment with loads of options - units you can place anywhere and which are always open to new ideas.

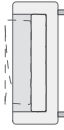

## Notes on planning and ordering

Before you decide on your final arrangement, choose from the following criteria:

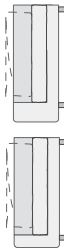

- Substructure:**  
Choose from a close to the floor version ("Floor level") or an arched support made of high-gloss chrome ("Arched support"). Please refer to the corresponding unit-type plan!
- Unit depth:**  
You can choose between a unit depth of 96 cm or 110 cm for nearly all the different units. Please always remember to state the order number of the required unit in your order!
- Armrest width:**  
When you decide on an armrest you can choose between widths of 15 cm or 24 cm for nearly all the different units. Please always remember to state the model number of the required armrest width in your order (model no. 15 for the 15 cm wide armrest or model no. 24 for the 24 cm wide armrest).

Floor level

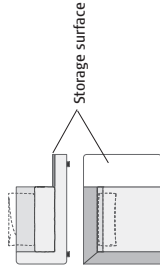

Arched support

15 cm or ...

24 cm wide armrest

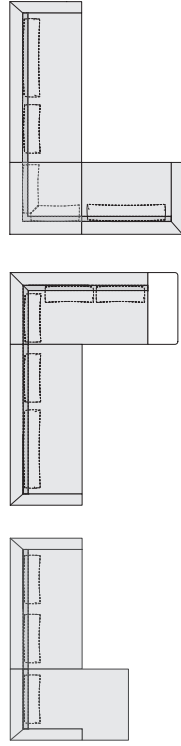

Storage surface

- Wood version:**  
If you decide on a unit with a storage surface or ancillary units, you can choose from different wooden surface versions: oak anthracite, natural oak, oak mocca, walnut and polar-white lacquer. Please always remember to state the model number of the required wood surface version in your order (e.g. model no. 1001 for the oak anthracite version).

- Belt colours:**  
You can also include accessories such as foot stools and cushions to enhance your chosen unit. Nearly all the units are available with or without a belt. When ordering, please remember to state the model number of the required belt colour for the foot stools and cushions with belt (e.g. model no. 2001 for the version "Berry: aubergine - bordeaux - aubergine").

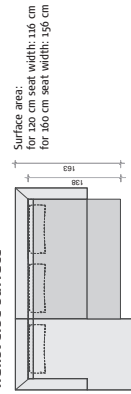

## 6. Planning suggestions

## Sleeping sofa functions

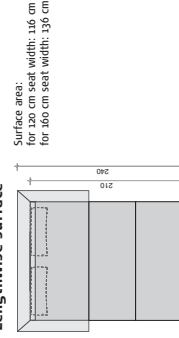

Please choose from a transverse sleeping surface, which provides a comfortable lying surface for one person when added to another unit, and a lengthwise sleeping surface - this provides a comfortable lying surface for two persons.

### Transverse surface

Surface area:  
for 120 cm seat width: 116 cm  
for 160 cm seat width: 156 cm

### Lengthwise surface

Surface area:  
for 120 cm seat width: 116 cm  
for 160 cm seat width: 136 cm
